

**Charles Barrington,
Chairman, Metrix**

Charles Barrington qualified with Touche Ross (now Deloitte&Touche) in 1970. He spent 10 years in the shipbroking industry, followed by 16 years as a banker and investment banker. His last senior banking role was as a Managing Director of Hill Samuel, prior to the takeover of TSB by Lloyds. When Hill Samuel was wound up in 1996, Charles became an independent consultant, specialising in MoD PFI projects. He was a non-executive director of the ATRA from 1997 to 2001.

After leading the formation of the MoDeM consortium, underbidder on the MoD Main Building project, Charles was asked to join RMPA as Project Director upon their appointment as Preferred Bidder on the Colchester Garrison PFI project in October 1999. Closing Colchester took 4 years and was a challenging task given the complexity of the project and the wide range of issues which required to be addressed.

Charles is now non-executive Chairman of RMPA. He was also non-executive Chairman of Holdfast DTR, one of the two final bidders on DTR Package 2, and he provided advice to Holdfast RSME on the alienated land and planning issues on the RSME PPP project. He also chairs the Audit Committee of the London Board of Assured Guaranty, a bond wrapper now active in the European and International market, and he sits on the Enemy Property Claims Assessment Panel for the DTI.
