However, these times may be subject to change or extension at any time without opportunity for prior notice. Red flags or red lights indicate that firing is taking place and that the beach (within the Land Area) plus the Sea Area are closed to general public access for safety purposes. The coordinates of the buoys marking the Sea Area can be found on the website below. This schedule is subject to not only the daily acoustic forecast, but also to tide times, weather conditions and operational requirements.
